I enclose copy of a letter addressed to the Sub Collector, Hospet, regarding the suspension of February kist in 6 villages of Hospet taluk adjoining the Bellary taluk and forming part of the same famine area. The material is not sufficient for a case for the orders of the Board or Government or even for mine. The decision, however, has to be taken at once, and can only be taken by the man on the spot, the Sub Collector, who is now engaged on the inspection of the crops.

Assessment- and Revenue- Hospet taluk- 6 villages- Postponement of list.

Ref:- Your letter C.No. 66/37 dated 15-1-42.

Your promised to send us before 25-1-42, definite proposals regarding the postponement of lists in 6 villages on sample kicka eyes inspection the crops; but your report has not yet been received. Please expedite it.

2. According to G.O.C. 14 para 4 any suspension of the collection of revenue must relate to a definite list. The January list (2 annas) is over and it cannot now be suspended. However since the Tahsildar's preliminary report that the out-turn is not two to three annas it is probable that the Government will be moved to remit the remaining 3 annas in the case of the adjoining similar tract in the Bellary taluk. Therefore, subject to the Board of Revenue's control, I authorise you if satisfied on personal and thorough inspection that the Tahsildar's estimate is correct, to delay collecting the February list till Board and Government's orders are received.

that the Subcom. did have requested the Collrs order for the suspension of the January list- also. As January is past, the Collr has correctly replied him in the second sentence. Reading this portion of the reply relating to January and the last sentence of para 2, it is submitted that the result of the order will be to go easy with the collections not to take coercive processes.

Assessment- Land Revenue- Fasli 1341- Hospet taluk- 6 villages- remission proposals.

Ref:- Board's Ref.No. H.705/32-1 dated 4-2-32.

The enclosed statement shows the outturn of both mungari and hingari crops in the six villages of Kampli firka, Hospet taluk. The Sub Collector has inspected all of them. The average outturn is 3 annas in Jeeriganur and 2 annas in the remaining 5 villages. Hampadevanahalli, Gonahal, Sugganahalli and Jeeriganur have small wet ayacuts under Daroji tank or Narivanka channels, but dry cultivation is the mainstay of all these villages. The hingari crops failed completely. These villages border on Bellary taluk and conditions are similar to those in Bellary taluk. In 1927 the dry assessment in these villages was postponed to the next fasli-vide Board's Ref.H. 339/27-7 dated 4-3-1927 Last year tirvakammi remission was granted in the case of the wet lands in Hampadevanahalli, Gonahal and Jeeriganur as the crops suffered on account of inadequate supply in the irrigation sources. I recommend that half the dry assessment in all the six villages be remitted. The total dry assessment is Rs.5160 as shown in Column 31 of the statement and about half of it will have to be remitted. The exact amount to be remitted will be reported in due

due course.

2. Please wire sanction postponement of February kist
